TALK TITLE

RH2INE – Facilitating a hydrogen ecosystem in inland waterway transport

ABOUT

Stefan Garche has been working for North Rhine-Westphalia since 2007. As Manager for Mobility at the NRW.Energy4Climate, where he supports mobility projects for climate neutrality. His focus is on hydrogen and fuel cells for transport, therefore also in the project RH2INE.

As a lawyer, Stefan Garche was able to gain experience for the last 14 years at VDE Renewables and in the EnergyAgency.NRW, where he was the contact person for over 500 members in the Fuel Cell and Hydrogen, Electromobility Network

He is also Secretary of the Advisory Board of the National Organisation for Hydrogen and Fuel Cell Technologies (NOW GmbH).

ABSTRACT

Facilitating a hydrogen ecosystem in inland waterway transport (connecting): hydrogen vessels, port infrastructure and intralogistics.
