Advantages of POSTER presentation at the EFCF

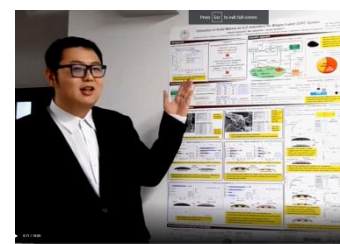

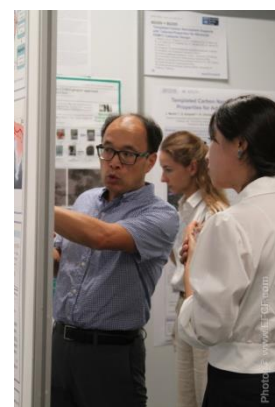

An **EFCF poster** is the opportunity to present your research in a **lively, direct and understandable way**.

A poster presentation of your contribution has an extremely high added value. EFCF makes every effort to ensure that poster contributions, like oral presentations, are optimally perceived and also achieve corresponding levels of visibility, reactions and networking.

Do not think that at EFCF posters are only shown as surplus contributions in an unorganized pile. On the contrary, they are highly valued, and made accessible as fully-fledged scientific or industrial contributions. Experience has shown that posters offer a valuable addition and have many advantages:

POSTER contributions are

- ✓ **always accessible** for attendees throughout the whole conference, discussed in extended **daily poster sessions** and clearly **assigned to a topic** like all oral presentations;
 - ✓ **listed in the program** and in the abstract and paper file list i.e. in the **proceedings**, fully accessible on www.EFCF.com/Library.
 - ✓ **published** with their **own DOI** (if the authors wish) at www.EFCF.com/DOI and also able to apply for **publication in the Special Issues** www.EFCF.com/SI
- e.g. "FUEL CELLS" from Wiley-VCH.
- ✓ In addition poster presentations can be **pre-recorded as an MP4 file** & made available worldwide on a long-term basis at www.EFCF.com/COMMUNITY (see "[Instructions for VIRTUAL POSTER Presentation](#)").
- ✓ And last but not least, the BEST POSTER presentation
- ➔ will be **awarded** the Schönbein Award for 'Best Poster' including a cash prize.
 - ➔ can also win the 'Best Scientific Contribution Award'.

At EFCF, your poster presentation is **highly valued**,
fully integrated into the overall program, and
offers **significant added value for authors**.

Be proud to present your contribution as a poster and make full use of the opportunities to showcase your work.

An EFCF Poster Presentation – a wining situation.
